## Drilled It In

The late Meramac Oil company's well in the northeast corner of the northeast of 42-15, near the town of Meramac, which is west of Cleveland, Okla., reported in yesterday's World as making 3,000.000 feet of gas, has drilled itself in and is now reported good for 250 barrels only. It is one of the highest news items of a very busy month.

## Installation Social at Temple Israel

Installation of the recently elected officers of the congregation and sisterhood of Temple Israel will take place at an informal social entertainment in the social center rooms of the temple on Thursday evening, May 27. The congregational officers and directors who will be inducted into office are: President, Max Madansky; vice president, L. D. Lewkowicz; secretary-treasurer, Dr. Joseph Kohn; Joseph L. Jacobson, Harry Madansky and Sam Rosenberg. The sisterhood officers are: President, Mrs. Charles B. Lutz; vice president, Mrs. Lewis Barrett; secretary, Mrs. Louis Caplin; treasurer, Mrs. Kay Stern.

## Funeral of Willis Wade Shepard

Willis Wade Shepard, beloved son of W. K. Shepard, vice-president and general manager of the Seby Oil & Gas Co., was laid to rest Sunday. Young Shepard was badly injured Friday at noon, and succumbed to his injuries Saturday morning. His death was due to a distressing accident in which he was run over by a motor truck.

Floral offerings were abundant and beautiful at the impressive funeral services, which were held at the family home at 521 West Fourth street Sunday afternoon. Hundreds of friends of the Shepards were gathered by the untimely death of their young son. This bereavement, one of the saddest which has ever occurred here, has cast sorrow over the community. Condolences and sympathetic expressions reached the family from many sources attesting the deep estimation of Tulsa for the family and departed young son.

## At Arkansas City, Kansas.

Great excitement prevails on account of the Marland well, 5 1/2 miles northwest of Arkansas City in the southeast of the southwest of 16-23-36, where oil was found at 3,650 feet. The well made 100 barrels in 50 minutes.

## West Cushing Pool

By L. P. WHARTON, Cushing, Okla., CUSHING, May 22.—There has been much discussion as to what kind the production in this pool came from and it has been frequently stated in some of the papers and oil journals that it is the Skinner. This theory was knocked into a cocked hat this week by the Texas company getting a small producer in the Skinner about 100 feet above the regular producing sand. All now agree that the Texas sand is the Skinner. The March Oil company's well No. 1 was drilled into the second pay and has held up almost to its initial production. Although it is now seven months old, as the Skinner and has no second pay there is no other conclusion than that the regular producer is the Bartlesville.

## You Can Make \$500 to \$1000 a Month Milling "Flavo" Flour

In your community on this New Wonderful Flour, no previous milling experience necessary.

## Be a Miller

and have a dignified, permanent business that will earn you steady profits of 1,000 feet per year. Grind your home-grown wheat, supply your community with flour and feed. You save the freight on the wheat going out, and the flour and feed coming in. Besides earning the regular milling profits you get the extra profit of making a BETTER BARREL OF FLOUR CHEAPER! The new process, self-contained, one-man, roller mill that is revolutionizing the milling industry. It requires less than half the power and labor of the usual roller mill and makes a creamy white, better flour that retains the health building vitamins and the natural sweet flavor of the wheat. Our customers are given the privilege of using our Nationally advertised Brand.

## "Flavo" Flour "Famous for its Flavor"

We furnish the sacks with your name printed on them. Our SERVICE DEPARTMENT examines samples of your flour every thirty days and keeps your products up to our high "Flavo" standard. We start you in business with our Confidential Selling Plans and teach you the business of milling and selling flour. You can start in this most delightfully profitable business, with our 15 barrels per day, mill with an investment of \$150.00 capital. Other sizes up to 200 barrels. Over 200,000 communities already have a "Flavo" mill. Start now milling "Flavo" Flour in your own community before some one else takes advantage of this wonderful opportunity.

Write today for our Free Book "The Story of a Flour Mill" The Anglo-American Mill Co., 827-833 Trust Bldg., Owensboro, Ky.

tank farm is spudding in and is down to 100 feet. No. 2 on same farm is building rig as offset to Producers and Refiners' well on the Peery farm.

Texas No. 2 on Driggs farm is drilling at 1,800 feet. It is located in northeast of southwest of 29-18-5.

Texas No. 2 on Lamley farm in northeast of northeast of 32-18-5 is drilling at 1,300 feet.

Texas No. 1 on Cardin farm in northeast of southeast of 32-18-5 is under-reaming at 1,700 feet.

White Oil Corp. well No. 1 on the Milton Thompson farm in south half of southwest of 29-18-5 is drilling at 1,750 feet. No. 2 on same farm is drilling at 1,250 feet and No. 3 on same farm is fishing at 1,100 feet.

White company's No. 1 on Cardin farm in northeast of southeast of 32-18-5 is drilling at 600 feet.

The Amerasia company's well No. 1 on the Signs farm in southwest of northwest of 32-18-5 is drilling at 1,600 feet.

Amerasia well No. 2 on the Hubbard farm in northeast of northwest of 29-18-5 is under-reaming the 12-inch casing at 1,250 feet.

The Tulsa company well No. 1 on Hubbard in northeast of northwest of 29-18-5 is drilling at 1,200 feet.

Tidal well No. 1 on Dixon farm in southwest of northwest of 27-18-5 is drilling at 2,400 feet.

Lavington Oil company's well No. 1 on Hubbard in southeast of southwest of 29-18-5 is shut down at 1,950 feet waiting for the 8-inch casing.

Lavington well No. 1 on Kohn in northeast of 19-18-5 is fishing for bit at 2,350 feet.

Shaffer company's well No. 1 on Shaffer farm in northwest of 5-17-18 had a million feet of gas in the Wheeler at 2,425. They have the

8-inch casing at at this depth and will go on down to the Bartlesville. Rigdon well No. 1 in southeast of northeast of 18-18-14 is drilling at 1,170 feet.

Green and Dingwall well on the Giant farm in northwest of northeast of 28-25-5 is shut down at 1,100 feet.

Magnolia well No. 1 on Ben Long farm in northeast of southeast of 6-18-16 is drilling at 615 feet.

At Nipo Springs, Texas

Two more wells were brought in today in the shallow field that extend it north and south. Grinstead et al., Halse No. 1 is good for 30 barrels at 350 feet and Universal Oklahoma company completed their No. 1 on the Groves tract for a 35 barrel well at 230 feet.

The daily production from the shallow pool is now approximately 1,600 barrels with about 45 wells drilling that will probably bring this to around 2,500 barrels when finished.

Pumping From Kansas Field

PONCA CITY, May 21.—Grade oil is being piped to the Empire refineries in Oklahoma from the Elbing-Peabody field in Kansas. It is claimed that this oil, because of its high specific gravity, is being kept separate. The oil is said to test 32.2 and the claim is made that it is the plants of the company are getting the oil at the present time.

Northern Oklahoma Is Getting Two Unusually Deep Oil Tests.

PONCA CITY, Okla., May 23.—Northern Oklahoma is getting two of the deepest oil tests the country has yet known. One of them, that of the Union Trust company, with which the Johnson farm in the northern Kay county is now drilling at approximately 4,900 feet and is the deepest test in the state. When asked re-

tently what the intention of the company is in regard to the Johnson well, one of the Marland officials replied: "As long as the drilling is good we will continue going downward. No limit has yet been set."

The other deep test is that of the Midco Petroleum company. It is the initial well, the No. 2 Hoover, in the Hillings field, which is now drilling at 4,370 feet and still going down in a very favorable formation. This well is now deeper than was the Kirkpatrick test in the same field, which was abandoned at 4,445 feet.

They have been shown around by Thomas E. Elliot of Nowata, and H. R. McGill, treasurer and manager of Tulsa. The company is remodeling a building on Cheyenne between Second and Third, and will use it for office purposes. They were all loud in the praise of Tulsa.

With the Oil Men

A prominent party of Chicago capitalists has been looking over the properties of the Nowata Oil and Refining company, located in Nowata, Okla., Tulsa and Muskogee counties, and left last night for home much pleased with what they have seen. In the party were T. H. Cochran, president of the Ender Coal and Coke company; L. W. Jones, president of the L. W. Jones Coal company; R. W. Somerville, president of the Judson Freight Forwarding company; F. L. Wik, formerly vice president and now director of the Union Trust company, with which institution he has been connected for 42 years; Howard S. Larimer (sec-
